Officer J. J. Gaylord, of Athens, has invented and applied for a patent for a police club which is no doubt an excellent article. The stick is made regulation size. A leather cover, a whistle and enclosed dagger are the important features. In case of a tussle if the club is grasped the cover slips off and gives the officer the drop on the assailant. If it is grasped again a spring can be touched which releases the club part, in which is enclosed an 8-inch

danger. The whistle is attached to the handle and can be readily used.

Mayor Thomas F. Penman, of this city, grand junior warden of the Grand Commandery of Pennsylvania, on Friday evening last, at Susquehanna, installed the following officers of St. Andrew's commandery, No. 76, Knights Templar: Eminent commander, Homer E. Joseph B. Van Dusen, who died in Philadelphia Sunday aged 82 years, was one of the best known men in the anthracite coal trade. He was one of the pioneers in the anthracite coal regions of Luzerne and Carbon counties. For some years he operated the famous Black Diamond colliery, at Wilkes-Barre, and earned the reputation of being the most skillful manager of men and horses. No other man in the coal trade took place at a colliery of which he had charge, though he had in his employ Jack Kehoe and other members of the notorious Molly Maguire gang, by whom he was frequently threatened with violence. At the time of his death he was the oldest coal dealer in Philadelphia, having for sixty-three years been engaged in the mining and shipping of coal.

On Sunday afternoon, says the News-Dealer, east bound No. 6, passing train on the Lehigh Valley, carrying Wilkes-Barre at 3:03 p. m., was nearly fifty minutes late, due to Grand Truck connection being late. The train was unusually heavy, being made up of eight heavy cars, viz: one dining car, one Pullman, one combination car, two Pullman sleepers, one drawing room car, one observation car and one private car, containing a special party.

All the cars were crowded and seats were at a premium. Owing to the train being unusually long and all the cars heavy, three engines, instead of the usual two, were attached to pull the train up the mountain as far as Fairview. Engineer Hufford had charge of the regular engine, Engineer Cavan, of Fairview, and Engineer Kelly, of Wilkes-Barre, were in charge of the helpers. The train made a remarkable and wonderful run from Wilkes-Barre to Fairview. The customary time allotted for this run of sixteen miles is thirty-five minutes, but this heavy train, with its combination car, took in thirty-one minutes, thus gaining three minutes on the up-grade over the usual schedule time. The train went into Easton about on schedule time.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.
There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The extraordinary and extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have sample bottle and pamphlet both sent free by mail. Mention the Scranton Tribune and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

The volume of trading also increased somewhat, but it is still extraordinarily small. This reflects the increased confidence of the stock market concerning the shipments of gold to Europe.
